

Eco Park development, Charlton Lane, piling works

17 February 2017

Dear Sir / Madam,

We are writing to let you know that some further piling works will be taking place at our Charlton Lane site for the foundations for the Eco Park's gasification facility. When we wrote to you last summer, we did not anticipate further piling would be needed, however, following developments to the detailed design of the gasification facility over the winter, a small number of additional piles are required to strengthen the foundations in one area.

The piling will begin during the week commencing 20th February and will take around a week to complete. As piling can be noisier than other construction activities it will be restricted to the hours of 8am to 5pm on weekdays to minimise disturbance for nearby residents and our contractors will work to complete the piling as quickly as possible.

We would like to apologise in advance for any inconvenience caused by the noise of the piling and will undertake daily monitoring to ensure this is within the limits required by our planning condition.

For any queries or concerns about the building works, please contact me on 01932 766 905.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Emma Jordan".
