

Eco Park development, Charlton Lane, resurfacing CRC w/c 22 May

16 May 2017

Dear Sir / Madam,

We are writing to let you know that we will be resurfacing an area within the Community Recycling Centre (CRC) during the week commencing 22 May. The work will be to replace the temporary concrete surface with a permanent tarmac surface and we anticipate it taking three to five days to complete.

The area to be resurfaced has skips and recyclables containers placed on it and, due to this being one of the busiest times of the year for the recycling centre, it is not practical or safe for these works to be carried out when the site is open to the public.

As such, our contractors M&W are undertaking these works after hours, between 6pm and 10pm.

We expect there will be minimal noise and do not anticipate that the works will disturb nearby residents, but wanted to advise you of the work as you may notice activity on site after our normal working hours. Please note that the planning authority have been advised.

If you have any queries or concerns about the building works, please contact me on 01932 766 905 or email louise.morton@suez.com.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Louise Morton".
