

Eco Park development, Charlton Lane, piling works

17 May 2016

Dear Sir / Madam,

We are writing to let you know that the second and final phase of piling works at our Charlton Lane site is due to start during the week commencing 23rd May. Piling is a necessary part of the construction process and will involve driving concrete piles into the ground to provide a stable foundation for the Eco Park's Gasification Facility.

The piling is due to be completed around the end of August and, as it can be noisier than other construction activities, it is restricted to the hours of 8am to 5pm on weekdays. Our contractors will work to minimise disturbance and ensure that the piling is completed as quickly as possible.

We appreciate that residents and others in the area around the site will be able to hear noise from the piling activity, and would like to apologise in advance for any inconvenience the works may cause. Daily monitoring will be undertaken to ensure that noise from the building works is within the limits required by our planning condition. If you have any queries or concerns about the works, please contact me on 01932 766 905.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Emma Jordan".
